

Brief report on Dissemination as requested by the coordinator

1- Give greater visibility to the courses produced by the project on your universities' websites; We have provided the link to the official DE4PP website, from which the moodle platform is redirected to enable the materials to be used.

ANT has set up a page on its website dedicated to the project: <https://ant.it/cosa-facciamo/ricerca/de4pp/>

2- Check that all dissemination-related activities have found adequate space on your multimedia channels.

3- Indicate your links used for communication & dissemination to refer to from the project site

Here the links:

4- We have to make the access to the moodle platform completely open and to share all course content and other project activities on the project website.

We do not use moodle as we are not a university. We may add a link for the material directly on our website.
